The Abetters of "Sectionalism." The crime for which Mesers. Struckland and 1 r-ox, respectable booksellers and old residents of Mobile, were forcibly expelled from that city and compelled to flee for their lives, was selling copies, to such persons as asked for it, of Frader ick Douglass' work, "My Bondage and My Fre dom." The offence for which the FREMON? mee ing in Wheeling was violently interrupted and broken up and the principal speakers mobbed and maltreated, was declaring for Freedom and against the extension of Slavery. The treason of which Mr. Underwood, of Virginia, was guilty and for which he was ostracised and battished from the State, was attending the Philadel phia Convention and making a speech in favor of FREMONT AND PREXDON!

What a record is this for our boasted "Land of the Free," par much vaunted " Model Repub-He!" Men attacked, mobbed, driven from their nomes, deprived of their property, and compelhad to dee for their lives, for the crime of holding Anti-Slavery opinions, attending Anti-Slavery books! And who are 'They?

Yet the persecutors in all these cases, the Mobbers and "Border Ruffams" of Mobile, of Wreeling and of Spottsylvania, claim that theirs is the only "National" creed, or party, and that their friends of Firsmont are "sectionalists." Suppose we at the North undertook in the same way to prove them "sectionalists," by mobbing and maltrenting all that stood up for Buchanan and Slavery. How the Euchanan organs would shame with indignation at such an outrage upon in the following members from the North voted the finends of Firsmont are "sectionalists." C. U. Washburne Re-Nominated. We are lappy to learn that the Recublican of the Western Congressional District in this State, at the Convention which met at Mineral Point on Wednesday, ununimously nominated CADWALLADER C. WASHIETENE, the present faithful and efficient Representative from that District, as a candidate for re-election. Mr Washmany has nobly earned this compliment by his devotion to the public interests, to the wants and wisher of his constituents, and to the principles of Freedom. The New York Evening Mirror, contrasting

the relative claims of Farmont and Buchanan to the st pport of the conservative, Union-loving men o all parties, thus strongly puts the case:

During the whole term of Franklin Pierce, the
Union has been torn by a sectional agitation,
simply because he has proven himself, in all respects, a sectional President. Elected by the
conservative, peace-dwing masses of his countryme 1 on a platform adverse to slavery agitation, le has done more than any other man who
ever excepted a position of influence in the country, to widen the breach between the North and
she Stuth, and to increase the bitterness of the
strife in the subject of slavery. Hr. Buchanan
is plet ged to the same policy, and in the event
of his election can be nothing but a willing tool
in the hands of the slavery propagandists. Agitation vill then go on with tenfold bitterness, until
patric a may truly begin to fear for the permanence of the Union. But there is an easy way
of pitting a stop to agitation, and rectoring
peace and confidence to a wearied people. The

The New York Herald in an afticle upon the diagraceful attacks upon Col. Fremont, has the

It is but a short time ago that Fremont was young lion among the Democracy, and an especial per of South Carolina. Mark the change!—Then he was everything that was great and making more than represent him as everything the ble; now they represent him as everything tha is mean, treacherous and contemptible. They make him a millionaire and a bankrupt, a despente duellist and yet a coward, a Know-Nothing and a Catholic, a slaveholder and an abolitionist-born in a penitentiary, educated in a tionst—norm in a pententiary, educated in a workhouse, and disciplined in politics among the Border Rufflans and Digger Indians of the Rocky Mountains. To prove, however, that as a youth he was not the inheator of slaves, a correspondent of the Chuloston Mercury furnishes that paper with the following legal evidence of the real and personal estate of Fremont when he was cichteen reans of ages eighteen years of age:-

Schedule of the estate and effects of J. O. Fremont, in custonly of the Shariff of Charleston district, by virtue of two write of employ and varpondendam, at the sails of Elward Schring and K. L. Rochet:—

Then follow the assignment of these effects t is two tailor creditors by Fremont, and his reason under the prison bounds act of Charleston, the son of chiralry furnishing these papers, factionally remarked that they "will dispose the control of th any mystery as to Fremont's reasons for not being a slaveholder," because "comparative, fow gentlemen in the South owning five shits and those not paid for, are the proprietors of Accepting this view of the matter as a knock

down argument, the subject is yet engagestive of a remark or two in a diderent light. Here are the legal proofs that John C. Fremont, eighteen years of age, among the generous people of Charleston, was despoiled of his clothes and his books to meet the paltry debts incurred in procuring them. He was a young student, strug-gling to educate himself and to support his mother at the same time. That he had a hard time of it, there can be no longer any doubt.— This evidence of the assignment of his clothes and books is sufficient proof. That he ultimate and books is suncient proof. That he diffinitely conquered those difficulties of power; and the lack of friends, let his subsequent history and present position bear witness. But what is the inforence here respecting the boasted liberality of the people of Charleston to the youth of Fremont? It is an inference, we regret to say, that he owns then politics. he owes them nothing.

he owes then nothing.

But what a glorious contrast to Fremont! in 1831, a poor scholar in Charleston, without a shirt to his back; in 1856 the owner of Mariposa and a candidate for the Presidency, with a confidence of the presidency. hair prospects of an election against two of the oldest and most active Presidential politicisms in the United States! And if Senators Bigler an Thompson are not aware of the fact, we may a well taform them, this idea of running Fremon for the Presidency originated with the Democratic party, or with some of its managers, which is the same thing. Less than a year ago, he Fremout consented to ride the Nebraska bill, 1 would in all probability have been adopted as the Democratic candidate for the Presidency, upon the superior claims of a higher and more

upon the superior claims of a higher and more extended personal popularity than any other living man in the United States.

We know what we say, and the whole mystery will in due season be fully explained. We only topeat, for the present, with a knowledge of the circumstances, that had fremont, when applied to by a Democratic committee, consented to swallow the Kausas Nebruska bill, he would have put the nose of Mr. Buchanan out of joint as the Democratic rominee. Pennsylvaniagin Danger-The Arm Bill. Washington, Aug. 25.

There is a heavy pressure, by letter, telegraph and personal representations, upon the Democracy, from leading friends of Mr. Buchanan, to compromise on the Proviso, or prepare for deleat in Pennsylvania. It was probably unler this inspirution that Mr. Weller gave notice of a bill in the Senate to-day, substantially embodying, as an independent proposition, Mr. Geyer's amendment to the Toombs bill, which declares that no law shall have force or educt in Kansas requiring a shall have force or effect in Kansas requiring a disguise. Poor man! where will he find a resting place from the scorn and contempt of his fellow men? and oh! where from his own conscience, if it is not seared as with a hot iron!

Disorder reigns supreme in the country, excepting in this city of Lawrence. It is a matter of profound astonishment that the streets of this town are free from confusion and disorder.

I have no doubt that three-fourth, so of all the voices which bearer of the braner of the braner of the scorn and contempt of his fellow men? Yours,

The object of this movement is to relieve the present difficulty on the Army bill and at the same time to disembarrass the Democracy from the edium of sustaining such outrageous laws. Con sidering the source, it is clear that the party must be seriously concerned about both points for Mr. Weller has been most unyielding on the

Practically it is almost only a question of time and is so generally realized, as to the result of this contest. Whenever the Administration can bring in all its absentees and their allies, they can control the House and pass the bill in an form which the Senate may dictate. The Re-publicans having done their duty are ready for this triumph, just as they are prepared for its accomplishment by men professing ict with them.

Southern Emigrant Aid Companies-How they Lucked, and Acida and Talked: [Correspondence of the Cincinnati Commercial.)

Cairo, Ill., Aug. 18, '56. Fos. Cox.:—Our citizens are not aware of the efforts now making in the South to enslave Kansus. They are organized and organizing, in Mis-sissippi, Tennessee and South Carolin, to some parties of desperate men into Kansa; sufficient to vote down the settlers. The Missouri River being blocked up and inaccessible to emigrants from the Free States, few free settlers can get from the Free States, two free settlers can get there, as they have to travel over three hundred miles through Iowa, most of which is unsettled, which subjects them to great privations. Last evening a party of filty-four lunded from So th Carolina, at this place, on their way to

Kansas. They marched in regular array from the river to the hotel. They had the Long Star on their caps, and the Palmetto Tree on their coats. They said they had come by milroad to Nashville, where, in consequence of low water in the Cumberland River, they purchased a flat bout, and were two weeks in descending the river to the Ohio. Most of them were drunken, turbulent fellows, and the people here pleased to get rid of them. They left this morning without paying their tavern bills. The landload followed them to the steambest, and collected something from a few of them before the steamer got under way for St. Louis. They openly said they expected to fight the Abelidonists in Kansas. One of their leaders said if Fremont was elected the Union would be dissolved, and war take place between the North and the South, which he very much desired, as the South could and would whip the North. He said the North were all cowards—that one Southerner could whip bree of them. No one contradicted them. They

I am credibly informed that the American State Council of North Carolina have determined to recommend all the lodges of the State to cast their votes for Buchanan instead of Fills their votes for Buchanan instead of Fillmore.—
This edict has been privately communicated to all the members of the order, and there is no reason to doubt that it will be carried out. The grounds for taking such a course are that the late elections have proved that Mr. Fillmore cannot carry a single southern State, while there is no chance of his receiving any electronal votes from the North, and that it believes the South to present a united front in such a crisis as that she has now to pass through,

NEWS OF THE MORNING.

We conclude this morning the very interesting letter of our Kansas correspondent. He gives us information which may be fully relied apon in regard to the affairs of the Territory .-Our Milwankee company of emigrants, if will be seen, have arrived safely, and made locations. Attention is invited to the letter from Gen'l Smith in our telegraph report. He does not somm to place any great confidence in the state-From Congress we learn that the House of

And yet the persocutors in all these cases, the Mob-"Border Ruffians" of Mobile, of Waceling and of Spottsylvania, claim that theirs is the only "National" creed, or party, and that the friends of Farmour are "sectionalists." Suppose we at the North undertook in the same way to prove them "sectionalists," by mobbing and maltreating all that stood up for Bremanan and Shavear. How the Buchanan organs would theme with indignation at such an outrage upor private right and constitutional freedom! Yet not one word of censure or condemnation have these journals bestowed upon the Mobile or Wheeling persecutions. Indeed most of them have suppressed all mention of these outrages. Do they not thereby become, in some sense, accomories to these intolerable wrongs? Are they not aiders and abettors of the very " sectional ism" which they affect to denounce? There is a heavy pressure, by letter, telegraph and personal representations, upon the Democracy, from leading friends of Mr. Buchsman, to compromise on the Proviso, or prepare for defeat in Pennsylvania. It was probably under this inspiration that Mr. Weller gave notice of a bill in north-west of Oshkosh, containing over 1000 inhabitan s. It contains element s of wealth and nsure t a rapid and substantial growth. It sustains a Buchanan paper, and a F remont and Dayspiration that Mr. Weller gave notice of a bill in the Sciente to-day, substantially embedying, as an independent proposition, Mr. Geyer's amendment to the Toombe bill, which declares that no law shall haveforce or effect in Kansas requiring a test-path to support the Englity Sizve law, or any degislative act as a qualification for any civil official public trust or employment or professions or to serve as a juror, or vote at any elections or which shall impose any tax or condition to the exercise of the right of suffrage by any qualified voter, or which shall restrain by any qualified voter, or which shall restrain by any qualified voter, or which shall restrain by any factorial in the discussion of any law or subject of legislation in the Territory, or the free expression of is now ully organized. [Correspondence of the Cincinnati Commercial.] Carro, III., Aug. 18, 56. Ens. Con .:- Our citizens are not aware of the offerts now making in the South to enslave Kan-sus. They are organized and organizing, in Mis-sissippi, Tonnessee and South Carolina, to send parties of desporate men into Kansar, sufficient to vote down the settlers. The Missouri River ing blocked up, and inaccessible to emigrant om the Free Etates, few free settlers can ge from the Free States, few free settlers can get there, as they have to travel over three hundred miles through lows, most of which is unsettled which subjects them to great privations. Inust evening a party of fitty-four landed from South Carolling, at this place, on their way to Kansas. They marched in regular array from the riverse the betol. They had the Lows Stat on their caps, and the Palmetto Tree on their coats. They said they had come by railroad to Nashville, where, in consequence of low water in the Cumbertand River, they purchased a flatin the Cumberland River, they purchased a flat-boat, and were two weeks in desconding the river to the Ohio. Most of them were drunken, turbulent fellows, and the people here pleased to get rid of them. They left this morning without paying their invern bills. The landbord followed them to the steambest, and collected something from a few of times before the steamer got un-der way for Si Louis. They openly said they expected to fight the Abolitionists in Kansas. One of their leaders said if Fremont was elected the Union would be dissolved, and war take place between the North and the South, which the Union would be dissolved, and war takes place between the North and the South, which he very much desired, as the South could and would whip the North. He said the North was all cowards—that one Southerner could whip three of them. No one contradicted them. They had it all their own way here. That company will be allowed to go up the dissouri River, beyond a doubt.

This edict has been privately communicated to all the members of the order, and there is no reason to do to the first will be carried out. The grounds for taking such a course are that the late elections have proved that Mr. Fillmore cannot carry a single southern State, while there is no chance of his receiving any electrical votes from the North, and that it behoves the South to present a united front in each a crisis as that the has now to pass through.

The bill in the first place proposes to transfer the whole power which was conferred upon the organization of the Potto Rico, also arrived this A. M., and reported both places healthy, but business very dull.

The steamer Tennessee, from St. Thomas and Potto Rico, also arrived this A. M., and reported both places healthy, but business very dull, they may be laid before Congress for approval or the they may be laid before Congress for approval or disapproval. This was exactly according to the ancient form of Territorial government. The population of the Territory does not require a great deal of legislation. Its wants are fow and its legislation should be simple. A body, therestructed with power can have no motive to abuse it.

abuse it.

In the present state of excitement there, it would be merely impossible to have a fair and free expression of the will of the people, be therefore wished to avoid those difficulties and therefore wished to avoid those difficulties and proposed to place the power in the hands of the Governor and the Judges as a temporary expedient, having in contemplation the specify admission of Kansas as a State as soon as cheumstances would admit.

The 4th section of the bill provided that all the prosecutions or indictments, or other offences merely of a political character now pending in any of the courts at Kansus be dismissed, and every person who may at the passage of this act be limprisoned or held in enstedy under such charges be forthwich discharged.

Mr. Hunter from the committee of Conference on the army bill, reported that they had become unable to agree, and he saw no prospect of any agreement unless the Senate would consent to admit obnoxious tegislation with require to Kansus, which they would never do. He moved that the Senate adhere to its agreement.

The bill further provides that it shall be the did to the President to use armed ullitary forces to maintain the peace of the territory, to suppress insurrection, to repel invasion, to prosuppress insurrection, to repel invasion, to protect persons and property therein, also to endeavor by whatever constitutional means he may

Henry. The English papers were complimenting us on one liberality, and he thought no gentleman would object to passing the resolution.

Mr. Jones, of Tonnessee, said he was not satisfied the complete of the compl

The resolution appropriates \$40,000 for the purchase of the ship from her salvers, and her repairs, and she is to be presented to the British government in token of the deep interest felt by the United States in the service in which the ship was engaged at the times she was abundanced. The resolution was passed.

Mr. Campbell, of Ohio, from the committee of conference on disagreeing amendments to the numb bill, said they had met and after a full and free conference had come to no conclusion. The trouble, it was well known, grow out of the condition of things with reference to Kansas.

Mr. Campbell was satisfied that the two Honses would not be able to agree to any proposition relative to the Army Bill, which will tend to relieve the people of the Territory from the different by the conference of the Territory from the different had not be proper to outer into the details connected with that, he entired apon the conference with the hope that samething might be done to bring both bodies into agreement, so as to preathe bill and return home. He submitted to the Conference the maked proposition that no position of the money be used for enforcing the enactment of the body claiming to be the Territorial Legislature, leaving our the subsequent part of the proviso clifing on the Presidence to exercise a resident or over the highways. The Conference failed be-cause the Senate's committee declined to yield the simple proposition that the same shall not be employed to enforce laws founded on found, The difficulty presented by the Senate another The difficulty presented by the Senate another the incorporation of such a provise in the Armybill, would be independent legislation. It struck him is somewhat strange that such an objection as that should come from the Senate. It would be recollected that the House passed the P. Mr. Stephens, of Georgia, in replying to Mr. Campbell, said the House was not competent to pass on the validity of those laws: that was a matter that belonged to the Courts. Congress has no more jurisdiction to pass on the laws of Kunsus, than she has of Nebrasha on any other Tentury. The provise to the Army bill holded to Congress. The Serate, unlike the House, never made a point on the Houselwhere it had insisted upon striking out amendments, outside the legitimate object of an appropriation bill, and never attempted to stop the wheels of government. If legislation was desired for Kausas, why not introduce a seperate and independent bill. Mr. Stevens moved that the House recode from the amendment. Mother negatived by 97 against 100,

Washington, Aug. 28 Kansas.—The following is one of the letters from Gen. Smith, read in the Senate to-day by Gen. Cass:

Heavy-aworth, Aug. 14.

1 bave received a letter from Gov. Shumon asking me to take the field with the whole disposable force in the Territory, to prevent the disposable force in the Territory, to prevent the ingress of Lane's party by the northern boundary of the territory. The information given to the government has been so exaggented, and to my knowledge is so incorrect, that I decline making interference in the matter. Capt. P. J. Good, with his company of cavalry, is upon the northern frontier, and I shall depend upon his reports to govern my action. Two companies along the Kansas border were sent by the commanding officer, by the Governor's request, to break up the camps of armed men at saveral places he designated. On the arrival of the troops at the points designated, not only no camps were found, but none had ever existed there as anyghere else in the neighborhood. there are nyghere else in the neighborhood. I know each party is trying to engage the setion of the troops in expelling their adversaries, and I place no dependence on the reports that do not come from what I consider good upagily.
